antearly925@gmail.com

SUMMARY

Electrical Engineering student with a strong background in hands-on electrical work, technical troubleshooting, quality assurance, and regulatory compliance. Experienced in residential electrical installations, solar energy systems, circuit testing, and assisting with electrical fault isolation. Brings strong analytical and problem-solving abilities, attention to detail, and experience collaborating with teams to maintain safety, accuracy, and efficiency. Adaptable, quick to learn, and committed to delivering high-quality work while continuously developing technical and engineering skills.

SKILLS

- Residential wiring, panel & branch circuit work
- Voltage, continuity & grounding checks
- OSHA & electrical safety practices
- NEC code compliance
- Multimeter/oscilloscope operation
- Read schematics and wiring diagrams
- Circuit analysis (DC, transient response)
- Compliance auditing
- Technical documentation
- Circuit simulation (Multisim/LTSpice introductory)
- Programming & Software: Python, C/C++, JavaScript, HTML/CSS

EXPERIENCE

LIMON ELECTRICAL
Antioch, CA

Electrical Assistant 01/2026 to Current

- Supported residential wiring installation and repair, including wire pulling, routing, and termination for branch circuits.
- Assisted with panel and circuit work by installing breakers, outlets, switches, and fixtures.
- Helped isolate faults on residential circuits through voltage, continuity, and grounding checks, ensuring safe and reliable electrical systems.
- Supported code-compliant installations per NEC and local requirements, assisting electricians in maintaining high safety standards.

COCOKIDS
Concord, CA

Quality Assurance Auditor 05/2022 to 12/2025

- Visited area offices to review case files and documentation for state-regulated programs, ensuring staff compliance with state requirements.
- Collaborated with staff on corrective growth plans to enhance documentation accuracy and improve overall work quality.
- Reviewed audit findings to identify repeated errors and trends, documenting results in compliance reports for management.

DEL SOL ENERGY
Brentwood, CA

Solar Installation Technician 01/2018 to 07/2021

- Installed and wired residential solar photovoltaic systems, including panel mounting, inverter setup, conduit routing, grounding, and grid-tie connections.
- Executed electrical checks to verify continuity, grounding integrity, and compliance with electrical codes.
- Sized residential PV systems by analyzing customers' PG&E usage (kWh) and matching panel count to annual energy demand.
- Facilitated final city inspections by guiding inspectors through completed installations for prompt approval.

EDUCATION

B.S.: ELECTRICAL ENGINEERING Expected in 12/2028
Arizona State University, Tempe, AZ

FULL-STACK WEB DEVELOPMENT CERTIFICATE 01/2022
Coding Dojo

- Built and deployed full-stack web applications in Python and JavaScript, connecting front-end interfaces to databases and back-end APIs.

A.S.: ENGINEERING 06/2020
Los Medanos College, Pittsburg, CA
